

ARCAIDO

INTERNATIONAL GUARANTEE for ARCAIDO WATCH SWISS MADE

Guarantee

For the Arcaido watch, Balestra Srl (P.I. IT03060340274) grants a warranty against manufacturing defects for 24 months from the date of purchase, in compliance with the international regulations in force. The international Arcaido warranty covers any defects of the material with which the watch was produced as well as existing manufacturing defects at the time of delivery of the purchased watch. The guarantee applies only on condition that the watch is delivered to the service center complete with the guarantee certificate duly completed in its entirety and stamped by an authorized Arcaido retailer and that the serial number on the Guarantee Certificate corresponds to the watch number. During the warranty period and on presentation of the valid Warranty Certificate, the owner of the watch is entitled to free repair. In case the repair is not feasible, in the warranty range indicated above, the company guarantees the replacement with an identical or equal value watch.

The following are excluded from the guarantee:

1. Normal wear resulting from the use and aging of the product (such as scratched glass, alteration of color and/or material).
2. Damage resulting from failure to comply with the instructions for use.
3. Deterioration resulting from non-compliant, abnormal or reckless handling, negligence, accident, impact, etc.
4. Damage resulting from non-compliant interventions carried out by non-authorized service centres Balestra S.r.l.
5. Watches modified without check by Crossbow and repair with non-original components.

The assistance provided by Arcaido ensures perfect maintenance of the watch. If the watch requires assistance, only an authorized Arcaido retailer or an Arcaido Authorized Service Center, indicated on the Arcaido website, should rely on:

www.arcaido.com

This warranty is without prejudice to mandatory legal rights

Use and maintenance

1. Always make sure, before diving into the water, that the crown of the watch is closed and / or well screwed.
2. Although the watch is designed to withstand normal use, it must be avoided that it takes knocks or falls to the ground.

3. It is recommended to have the waterproofness of your watch checked periodically.
4. Watches, bracelets and straps must be cleaned regularly, especially if wet with salt water. To do this, use warm soapy water, then dry with a soft cloth.
5. Do not subject the watch to strong magnetic fields.

Materials used for Arcaido watches

Bronze CuSn6

Arcaido watches are made of CuSn6 bronze. Over time, bronze takes on different shades. Visit arcaido.com to find out how to treat your bronze watch.

316L steel

316L stainless steel it is a very resistant and long-lasting steel.

Hi-tech ceramic

Ceramic is a very hard and anti-scratch material.

Sapphire crystal

This glass is much more resistant than traditional mineral glass and less prone to scratching. In addition, each sapphire crystal is subjected to antireflective treatment.

Leather straps

Arcaido watches have genuine leather straps handmade in Italy. Imperfections and veins are peculiar characteristics of a handmade product.

Rubber straps

The rubber straps are made of rubber called EPDM, suitable

In vigore dal 01/01/2022

for contact with the skin and less subject to wear and deterioration.

Hands and luminescence

The hands and hour markers of Arcaido watches are enriched with Swiss Superluminova luminescence.

ROHS COMPLIANCE

As by EU Directive 2011/95/EC by and by Italian Legislative Decree 151 dated 25.07.2005, we declare that from January 3, 2013, all our new products (wrist watches, clocks, pocket watches and any other equipment suitable for measuring, indicating and setting time) comply the requirement of RoHS Directive and they do not contain hazardous substances in higher quantity than the agreed levels:

Lead (Pb) - Mercury (Hg) Cadmium (Cd) - Hexavalent chromium (Cr6+) - Polybrominated biphenyl (PBB) - Polybrominated diphenyl ether (PBDE).
